

Understanding your Select PPO health plan

When you need care, flexibility and choice matter. That's why your Select PPO plan offers a large network of care providers, so you can choose where to go for care.

With a Select PPO, you get:

- A large network of doctors and facilities.
- Personalized care from your primary care doctor.
- The freedom to visit any doctor or specialist in your plan's network without a referral.
- The ability to visit doctors outside your plan's network for a higher out-of-pocket cost.

Quality care that's cost effective

To offer even more savings, the Select PPO network includes care providers who partner with the plan to offer discounts in all areas of care. This includes diagnostic tests, inpatient and outpatient care, and prescription drug costs. That means lower out-of-pocket costs.

For more information about your Select PPO health plan, please contact Member Services using the number on your health plan ID card or call **800-888-8288**.

BlueCard PPO benefits

Select PPO plans also come with our BlueCard PPO wrap, which means you will have access to BlueCard preferred provider organization (PPO) care providers and your network benefits if you live outside of California or travel outside of California within the United States.*

You may receive non-network benefits by going to care providers in California who are not contracted with your Select PPO plan. If you travel outside of California or if you live outside of California and use a care provider who is not contracted with BlueCard PPO, your non-network benefits will apply. Only emergency services are covered outside the United States.

Locating a Select PPO care provider

With our online Find Care tool at anthem.com/ca, you can find local doctors, hospitals, and other care providers in the Select PPO network. Our extensive Select PPO network has more than 55,000 primary care doctors and specialists. That means the care providers you already use may be in our Select PPO network. Through BlueCard PPO, you can locate doctors and hospitals in your plan's network throughout the United States.
