Dear Steven Henry Shorr,

We wanted to update you with the latest information to help direct your clients as to which plans provide full coverage for care from Cedars-Sinai Medical Center and most of our physicians.

We have just become aware of another insurance option available to those who purchase individual or family health plans in California – ~~Assurant Health~~. Policies are underwritten and issued by Time Insurance Company and are ACA compliant. Assurant Health uses Aetna's broad PPO network known as Aetna Signature Administrators PPO. Their PPO offerings are outside of the Covered California exchange and include platinum, gold, silver and bronze major medical plans.

For more information and to enroll clients, contact Assurant Health:

- 800-358-9931

In addition to the Assurant Health offering, we have confirmed that the following options are still open for enrollment and provide full coverage for care from Cedars-Sinai Medical Center and most of our physicians.

Plans available through the Covered California health benefit exchange:

- Health Net Bronze PPO
- Health Net Catastrophic PPO (available to people under age 30)
- Health Net Tribal PPO (available to Native Americans and Alaska natives with certain incomes)

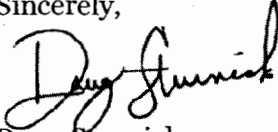

Plans available through an insurance broker or insurance company directly (off the exchange):

- Health Net
 - Health Net Platinum PPO
 - Health Net Gold PPO
 - Health Net Silver PPO
 - Health Net Bronze PPO
 - Health Net Catastrophic PPO (available to people under age 30)

If your clients have already selected a plan, but would prefer to switch to a different one, they have until March 15, 2014, to enroll in their desired plan for an April 1, 2014 effective date. Additional information is available under the "frequently asked questions" section at cedars-sinai.edu/insurance.
