Note: Benefits with Percentage Copayment amounts are based upon the UnitedHealthcare negotiated rate.

- ¹Annual Copayment Maximum does not include Copayments for pharmacy and supplemental benefits, except Behavioral Health Supplemental Benefits.
- ²Copayments for audiologist and podiatrist visits will be the same as for the PCP.
- ³Cancer Clinical Trial services require preauthorization by UnitedHealthcare. If you participate in a Cancer Clinical Trial provided by a Non-Participating Provider that does not agree to perform these services at the rate UnitedHealthcare negotiates with Participating Providers, you will be responsible for payment of the difference between the Non-Participating Providers billed charges and the rate negotiated by UnitedHealthcare with Participating Providers, in addition to any applicable Copayments, coinsurance or deductibles.
- ⁴The inpatient hospital benefits Copayment does not apply to newborns when the newborn is discharged with the mother within 48 hours of the normal vaginal delivery or 96 hours of the cesarean delivery. Please see the *Combined Evidence of Coverage and Disclosure Form* for more details.
- ⁵In instances where the negotiated rate is less than your Copayment, you will pay only the negotiated rate. (This footnote only applies to dollar copayments.)
- ⁶When an individual member meets the Annual Copayment Maximum no further copayments are required for the year for that individual.
- ⁷ Bone anchored hearing aid will be subject to applicable medical/surgical categories (.e.g. inpatient hospital, physician fees) only for members who meet the medical criteria specified in the Combined Evidence of Coverage and Disclosure Form. Limited to one (1) bone anchored hearing aid during the entire period of time the Member is enrolled in the Health Plan (per lifetime). There may be a separate copayment for the office visit and other additional charges for services rendered. Please call the Customer Service number on your Health Plan ID card.
- ⁹FDA-approved contraceptive methods and procedures recommended by the Health Resources and Services Administration as preventive care services will be 100% covered. Copayment applies to contraceptive methods and procedures that are <u>NOT</u> defined as Covered Services under the Preventive Care Services and Family Planning benefit as specified in the Combined Evidence of Coverage and Disclosure Form.

GIFT benefits are limited to three (3) cycles during a member's lifetime when Medically Necessary. A cycle is defined as drug-induced ovulation and monitoring of hormonal levels with or without ova retrieval. Infertility is defined as either: (1) the presence of a demonstrated condition recognized by a participating Medical Group as a cause of infertility, or (2) the inability to conceive a pregnancy or to carry a pregnancy to a live birth after a year or more of regular sexual relations without contraception. Refer to your *Combined Evidence of Coverage and Disclosure Form* for additional information on exclusions and limitations.
